

PROCEDURE FOR APPLICATION FOR A STANDBY GENERATOR PERMIT

Generator permit is required for the installation of all standby (automatic) and other types of generators.

Generators must be placed on the property in a location that meets all of the manufacturer's specifications.

Generators should also be placed in a location that meets the setback and zoning requirements for the Zoning District.

The natural gas/LP Propane supply where applicable shall be installed by a licensed plumber or qualified installer.

Please note that generators shall be located in a minimum distance of 5 feet from windows, doors and air intake locations.

Additionally, if generator has a diesel tank of 550 gallons or more, may require IDEM approval.

All applications must be reviewed by the Building Inspector for compliance with the applicable Building Codes and Zoning Ordinances prior to issuance of a permit.

The application shall be filled out completely and legibly with one set of plans containing the following information:

- **1.** A survey or site plan of the property and the structures thereon showing the location of the proposed generator.
- 2. The generator specifications showing the make, model number, size, specifications and general installation requirements.
- **3. Electrical Riser Diagram and Load Calculations**
- 4. The complete address and telephone number of the applicant, property owner, and contractor.
- 5. Must comply with Town of Cicero noise ordinance of 90 decibels if in Town limits.
- 6. Follow Accessory Structure Ordinance

A. Failure to comply with the above may result and/or in unnecessary delay in the consideration of your application by the Planning Director.

B. The Planning Department will not accept any application that does not include all of the foregoing.

C. Upon denial or amendment by the Planning Director, the applicant may appeal in person at the next regular scheduled meeting of the Zoning Board of Appeals.
